

Tableau Airbnb Dashboard

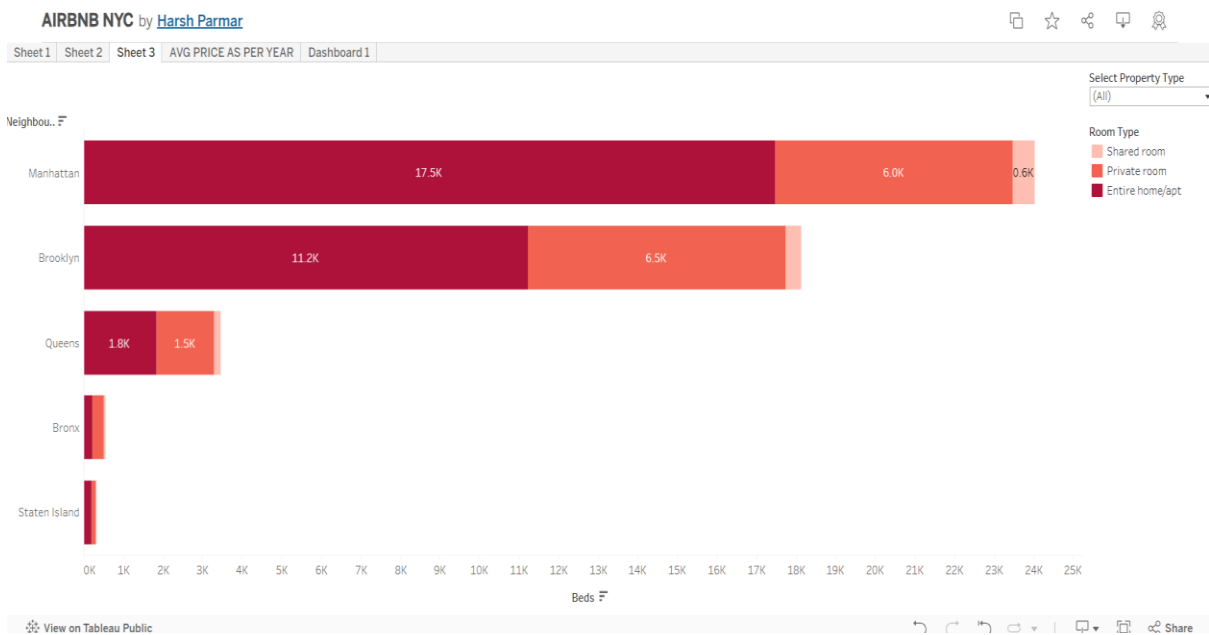

Average Price Based on Zipcode

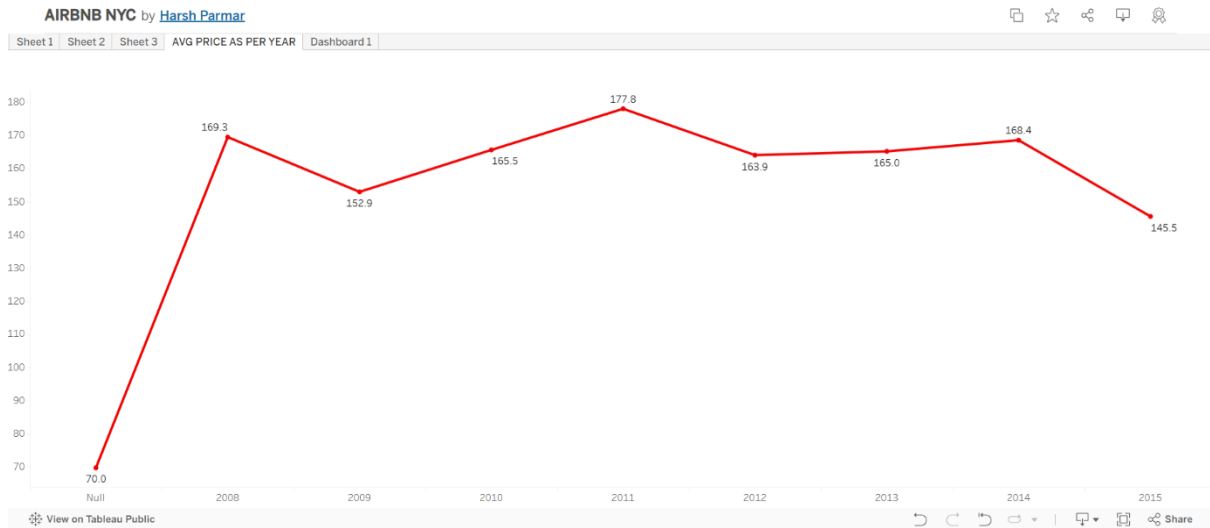

Top Regions Rating

Top Regions bed Availability

Average Price Per Year

Leveraged March 2023 Tableau to create interactive dashboards for visualizing booking trends, ensuring clear and insightful data representation.

Designed visualizations to highlight key metrics, such as top-performing and low performing locations, revenue trends, and seasonal pricing variations.

Developed comprehensive analyses of host and guest behaviors, including cost and booking preferences, using Tableau's advanced filtering and drill-down features.

Provided actionable insights through dynamic dashboards, enabling stakeholders to make data-driven decisions and implement strategic improvements effectively.
